WHAT TO DO AFTER AN ACCIDENT

C.R.A.S.H. quick guide | Earley Law Firm PLLC

FREE CASE EVALUATION (800) 714-3413

C **Call for help.** Call 911 for injuries or an emergency. Stop, exchange the required information, and report the crash to law enforcement when required. Follow responders' instructions.

R **Record safely.** If it is safe, photograph the vehicles, damage, road conditions, and surrounding scene. Keep witness contact information.

A **Ask an attorney.** After addressing immediate safety and medical needs, contact Earley Law Firm about your potential injury claim.

S **Save your records.** Keep the crash-report number, driver-exchange information, photographs, insurance correspondence, and medical records.

H **Have injuries evaluated promptly.** Seek appropriate medical care promptly. Florida PIP medical benefits generally require eligible initial care to be received within 14 days after the crash. Coverage and benefit limits depend on the policy and legal requirements.

General information only; not individualized legal or medical advice. Safety comes first. Follow emergency responders' instructions. Florida Statutes §§ 316.061, 316.065 and 627.736. Updated November 17, 2026.
